

—Brown Bag Series—

Intranet Search Engines

The last 10 years have been a race among a variety of Internet/Intranet-focused technologies. At the heart of all of these remains the search engine in all its variations. Join your colleagues to hear librarians and other information professionals share their experience with acquiring, testing, and modifying search engines to suit their organizations' needs.

Featured Speakers and Search Engines:

- Gerald Steeman, NASA — Moderator
- Christopher Connell, Institute for Defense Analyses — DTsearch
- Monica Unger, Health and Human Services — Google
- Carolyn Helmetsie and Jim Smail, NASA — Semantic Searching
- Denise Duncan, Logistics Management Institute — Overview
